

Aside

Product Summary — [textaside.app](#)

WHAT IT IS

Aside is an SMS-first content saving app. Users text anything they want to save — links, notes, ideas, recipes, articles — to a Twilio phone number with #hashtags to organize them. Everything is accessible via a clean web dashboard.

Tagline: *"Text it, tag it, find it later."*

CORE FUNCTIONALITY

Authentication

•
Phone number + SMS verification code
—
no password required

- Magic link authentication support

- Persistent sessions -based authentication

Progressive Web App (PWA)

- Installable to home screen on iOS and Android

- Offline

TECH STACK	
Frontend	React + TypeScript, built with Vite
Backend	Node.js + Express
Database	PostgreSQL with pgvector extension for semantic search
Production DB	Neon (serverless PostgreSQL)
ORM	Drizzle ORM with Drizzle-Zod for schema validation
Styling	Tailwind CSS + shadcn/ui component library
Routing	Wouter (lightweight client-side router)
Data Fetching	TanStack Query v5
Real-time	WebSockets for live board updates and notifications
Testing	Vitest + Supertest (auth, messages, boards, admin)

INTEGRATIONS	
Twilio	SMS/MMS webhooks, sending verification codes, outbound notifications, search result SMS replies
OpenAI	text-embedding-3-small (1536-dim vectors) + GPT-4o-mini for conversational AI & intent classification
AWS S3	MMS image storage with signed URL retrieval — prevents Twilio URL expiry issues
Neon PostgreSQL	Production database with pgvector for semantic search
Microlink	Rich link preview data and OG fetching with bot-protection bypass
TMDB API	Enhanced IMDB movie/TV link previews
Pendo	Analytics: tracks web visits AND SMS activity (20+ visitor profile fields per user)
Squarespace	Integration API: professional website signups trigger instant SMS welcome messages
